

Parents Comments

The school prepares children for the next level which is KG. The standard is higher compared to other preschools as far as where the educational emphasis is on. The bonus is the Arabic alphabet recognition and Islamic values practiced at this stage making it a part of their daily routine.

Zaneb

It's a great Islamic environment, well organized and educational.

Samira

My child learned a lot and the preschool has great environment.

Urooba

Teachers are nice and helpful. There is an excellent communication between the teachers and myself. I always get informed on my children's progress.

Fatme

Our son has come a far way. We are very blessed to have come across the opportunity to have him accepted into such an excellent program. He has brought many of the manners taught at school to home. His Quran memorization and his gained knowledge in Arabic and English have made us very happy and proud parents.

We are very happy to see our child somewhere he fits in and shares the same beliefs and values as others. Your dedication to our children and teaching them about Islam is very heart warming. We thank you from the bottom of our hearts for your commitments and for giving our child the right head start in life.

Al-Amal has exceeded our expectations and we are very blessed that our children can have an Islamic education. Your organization, motivation to teach our children and the schools cleanliness is what sets you apart from the other educational options and makes you number one.

Thank you for all your hard work and dedication to helping our kids have a better future.

Alia
